OLD ENGLAND:
OR,
The CONSTITUTIONAL JOURNAL.

By JEFFREY BROADBOTTOM, *of* Covent-Garden, *Esq*;

SATURDAY, JULY 13, 1745. [Nº. 118.]

I HAVE lately received, by an honeſt *Jamaican* Correſpondent, a Piece of true *Tyburntine* Compoſition, entitled, *The laſt Speech, dying Words, and Confeſſion of* H——r, *the Negro, who was executed on that Iſland, for a Conſpiracy againſt the* Engliſh. As the Reader may ſee by my gutting the above awful Name of its Letters, that I am apprehenſive of the Conſequences which may attend the ſimple Relation of a Fact, which actually happen'd, it may be natural to enquire the Reaſons of ſo affected a Precaution, eſpecially as this Slave actually was executed under that Name, and for that Crime, as may be ſeen by our publick News-Papers. To this I anſwer, that Experience teaches me there is no Defence againſt the Doctrine of *Innuendos*, as by the preſent upright Syſtem of Perſecution, I am in doubt whether I may not be obliged to produce the very Record of the Court, where this *H——r*, the Slave, was ſentenc'd, to ſcreen myſelf from the mercileſs Imputation of an *Innuendo*.

Therefore, 'till I am ſatisfy'd in this Point, common Prudence calls upon me to be very cautious of exhibiting this curious Piece of Biography to the Public: But, as the more uninform'd Part of my Readers may not be perfectly acquainted with the Nature of an Innuendo, that dangerous Foe to the Liberty of the Preſs, I ſhall beg leave to recommend to their Peruſal an Extract from a * Pamphlet, which, when firſt publiſhed, had the Approbation and Sanction of a certain Party, which has, of late, been inſpir'd with very different Sentiments.

If a Libel, (ſays a Counſellor, pleading againſt an Attorney-General) is underſtood in the large and unlimited Senſe, urg'd by Mr Attorney, there is ſcarce a Writing I know but may be called a Libel; or ſcarce any Perſon ſafe from being called to Account as a Libeller: For *Moſes*, meek as he was, libelled *Cain*; and who is it that has not libelled the Devil? For, according to Mr. Attorney, it is no Juſtification to ſay one has a bad Name. *Echard* has libelled our good King *William*; *Burnet* has libelled, among others, King *Charles* and King *James*; and *Rapin* has libell'd them all: How muſt a Man ſpeak or write, or what muſt he read, hear, or ſing, or when muſt he laugh, ſo as to be ſecure from being taken up as a Libeller? I ſincerely believe that were ſome Perſons to go through the Streets of *New-York* now a-days, and read a Part of the Bible, if it was not known to be ſuch, Mr. Attorney, with the Help of his *Innuendos*, would eaſily turn it into a Libel; as for Inſtance: Iſa. 9, 16, *The Leaders of the People cauſe them to err, and they that are led by them are deſtroyed.* But ſhould Mr. Attorney go about to make this a Libel, he would read it thus: *The Leaders of the People (Innuendo,* the Governor and Council of *New-York) cauſe them (Innuendo,* the People of this Province) *to err, and they* (the Governor and Council meaning) *are deſtroyed (Innuendo,* are deceived into the Loſs of their Liberty;) which is the worſt Kind of Deſtruction. Or, if ſome Perſons ſhould publickly repeat, in a Manner not pleaſing to his Betters, the 10th and 11th Verſes of the 66th Chapter of the ſame Book, there Mr. Attorney would have a large Field to diſplay his Skill, in the artful Application of his *Innuendos*; the Words are: *His Watchmen are all blind, they are ignorant*, &c. *yea, they are greedy Dogs, that can never have enough.* But to make them a Libel, there is, according to Mr. Attorney's Doctrine, no more wanting, but the Aid of his Skill in the right adapting his *Innuendos*; as for Inſtance: HIS WATCHMEN *(Innuendo,* the Governor's Council and Aſſembly) *are blind, they are ignorant, (Innuendo,* they will not ſee the dangerous Deſigns of his Excellency) *yea, they* (the Governor and Council meaning) *are greedy Dogs, that can never have enough (Innuendo,* enough of Riches and Power.) Such an Inſtance as this is, ſeems only fit to be laughed at; but, I may appeal to Mr. Attorney himſelf, whether theſe are not at leaſt equally proper to be applied to his Excellency and his Miniſters, as ſome of the Inferences and Innuendos in his Information againſt my Client. Then if Mr. Attorney is at Liberty to come into Court, and file an Information in the King's Name, without Leave, who is ſecure whom he is pleaſed to proſecute as a Libeller? And as the Crown Law is contended for in bad Times, there is no Remedy for the greateſt Oppreſſion of this Sort, even tho' the Party proſecuted is acquitted with Honour. And give me Leave to ſay, as great Men as any in *Britain* have boldly aſſerted, that the Mode of proſecuting by Information (when a Grand Jury will not find a *Billa Vera)* is a national Grievance, and greatly inconſiſtent with that Freedom which the Subjects of *England* enjoy in moſt other Caſes. But if we are ſo unhappy as not to be able to ward off this Stroke of Power directly, yet let us take care not to be cheated out of our Liberties by Forms and Appearances; let us always be ſure that the Charge in the Information is made out clearly, even beyond a Doubt; for the Matters in the Information may be called *Form* upon Trial, yet they may be, and often have been found, to be *Matters of Subſtance* upon giving Judgment.

Gentlemen, the Danger is great in Proportion to the Miſchief that may happen, through our too great Credulity: A proper Confidence in a Court is commendable, but as the Verdict (whatever it is) will be yours, you ought to refer no Part of your Duty to the Diſcretion of other Perſons. If you ſhould be of Opinion that there is no Falſhood in Mr. ——— Papers, you will, nay, (pardon me for the Expreſſion) you ought to ſay ſo; becauſe you don't know whether others (I mean the Court) may be of that Opinion: It is your Right to do ſo, and there is much depending upon your Reſolution as well as upon your Integrity.

The Loſs of Liberty to a generous Mind is worſe than Death; and yet we know there have been thoſe in all Ages, who, for the Sake of Preferment, or ſome imaginary Honour, have freely lent a helping Hand to oppreſs, nay, to deſtroy their Country. This brings to my Mind that Saying of the immortal *Brutus*, when he looked upon the Creatures of *Cæſar*, who were very great Men, but, by no Means, good Men: "You, *Romans*, ſaid *Brutus*, if "yet I may call you ſo, conſider what you are doing; "remember that you are aſſiſting *Cæſar* to forge thoſe "very Chains, which, one Day, he will make yourſelves "wear."

This is what every Man (that values Freedom) ought to conſider: He ſhould act by Judgment, and not by Affection or Self-Intereſt; for where thoſe prevail, no Ties of either Country or Kindred are regarded; as, upon the other Hand, the Man who loves his Country, prefers his Liberty to all other Conſiderations, well knowing, that, without Liberty, Life is a Miſery.

FOREIGN AFFAIRS.

GERMANY.

Gelnhauſen, July 9. About three Days ago a Perſon of ſome Condition was apprehended drinking with one of our Serjeants, upon his Information that he had aſk'd him ſome very ſuſpicious Queſtions. He proved to be a Native of the City of Cologne, a Jeweller by Trade, who anſwered with great Prudence and Dexterity; but an exact Line of Battle, and a curious Liſt of Effectives in every Regiment in our Army, being found ſewed in the Caul of his Wig, he was immediately hanged up as a Spy.

ITALY.

Genoa, June 26. We have received, with great Concern, the unexpected News of the Auſtrian General's advancing on the 20th to Novi, and on the 22d to Gavi; by which Means, all our Magazines are fallen at once into his Hands: But our Governor at Novi, by his Diſcretion, has done us ſome Service; ſince, on the Auſtrian General's demanding for whoſe Service thoſe Magazines were erected, he anſwered immediately, and with the greateſt Pretence of Mind, for the Service of ſuch as would pay for them. By which Means, he has procured Ready Money for ſo much as the Auſtrians thought fit to uſe; but when they take their Leave, it is to be fear'd they will make no Scruple of burning all that is left. The Spaniſh Miniſter here has preſented a Memorial, conceiv'd in very quick Terms, in which he charges all the Miſchiefs that have happened, upon our Slowneſs in declaring ourſelves; but it is not believed here, that this will contribute at all to quicken our Meaſures, ſince the new Engliſh Commodore has taken ſix or eight Veſſels laden with Ammunition; and keeps ſo ſtrict a Watch upon our Coaſt, that it is very doubtful whether any of the Spaniſh Embarkations will have a better Fate.

IRELAND.

Dublin, July 2. Laſt Saturday Morning a Duel was fought near Naraſmore in the County of Kildare, between Maurice Keating the younger, Eſq; and Mr. John Dil[illegible] of the ſaid County; in which the latter was ſhot thro' the Head, and died on the Spot.

Yeſterday came Advice, that the Hope of Dublin, James Lamb, Maſter, was taken by a French Privateer in his Paſſage from Dantzick hither; Five more Iriſh Veſſels were in Company with him, but had the good Fortune to eſcape.

By the laſt Packet from London, there came two Commiſſions from the Lords of the Admiralty, directed to Hugh Baillie, Eſq; Judge of the Court of Admiralty in this Kingdom; the one for condemning of Prizes taken from the Spaniards, and the other for condemning of Prizes taken from the French.

Yeſterday the Right Rev. Dr. Fletcher, Lord Biſhop of Kildare, was inſtalled Dean of Chriſt Church.

By a Letter from Capt. Peter Eaton, Commander of the Dublin Privateer, dated Kinſale, June 23, we learn, that on the 16th ult. 12 Leagues from Cape Clare, he diſcover'd a large Ship giving him Chace, which prov'd to be the Mercury, a French Man of War of 74 Guns; and that he chaced him 32 Hours and a half, Eleven of which they were ſo cloſely engaged, as to be within Muſket-ſhot. At laſt, finding himſelf in Sight of the Land's-End of England, he left him. At a moderate Computation there were 349 Shot fired at the Frenchman. Capt. Eaton has received a Letter from his Owners, returning him, and all the Ship's Company, their Thanks &c. their gallant Defence of their Ship, and promiſing to make them a ſuitable Recompence for their Bravery.

The Defiance Man of War, Lord Forreſter Commander, is ſailed in queſt of the above French Man of War.

LONDON.

Extract of a private Letter from the Camp of the Allies at Anderlecht, *dated July* 12, 1745.

'The L— de Molk, Lieutenant-General, having 'been detached by his Royal Highneſs the Duke of Cum-'berland to Aloſt, received Orders on Friday laſt to march 'with a Detachment conſiſting of ſome Hundred Huſſars, 'three Squadrons of Sir Robert Rich's Dragoons, three 'Squadrons of Slippezbach's Dragoons, and two other 'Squadrons of the Regiments of Ligne and Styrum, with 'the Royal Regiment, and that of General Bligh and 'General Handafyde's of Engliſh Foot, to ſecure the City 'of Ghent. The General, at the Head of theſe Troops 'march'd along the Cauſeway, 'till he came to the Priory 'of Melle, which lies on the Right Hand of the Cauſe-'way, where there lay 15,000 French in Ambuſcade; 'having two Batteries, one of Ten, the other of Eight 'Guns, before them. The Enemy ſuffer'd the General to 'paſs with three Squadrons of Rich's Dragoons, and the 'Royal Regiment of Foot, and then made a general Diſ-'charge from their Batteries; which, however, did their 'own People as much or more Hurt than it did ours. As 'ſoon as their Artillery had fire', the French Troops pre-'ſented themſelves in Order of Battle; upon which, Ge-'neral Molck ſeeing that it was abſolutely too late to re-'treat, attacked them with ſuch Fury, that he forced a 'Paſſage, and arriv'd ſafely in Ghent with the Huſſars, 'Rich's Dragoons, and the Royal Regiment of Foot. 'Brigadier Bligh ſeeing it impoſſible to follow General 'Molck, turn'd off to the Right; and with his own 'Regiment, that of Handſyde, and the Auſtrian and 'Dutch Squadrons of Dragoons, forc'd a Paſſage thro' 'the Enemy, gain'd a little Wood that lay at a ſmall 'Diſtance, and retired from thence to Dendermond. We 'have loſt in the whole about 400 Men; our Troops be-'haved with incredible Bravery, and have acquired im-'mortal Reputation. The Officers all did their Duty un-'exceptionably; and we owe our Misfortune to nothing 'but the Enemy's Superiority in Numbers. This Morn-'ing we had an Account of Ghent's being ſurprized, and 'of General Molcke's retiring from thence. We are at 'preſent in a very ſtrong Camp, ſo well ſituated, that we 'have little to fear from the Enemy; and, at the ſame 'time, covers Brabant entirely. It is believed we ſhall 'be ſpeedily reinforc'd by a Corps of Dutch Foot from 'their Gariſons, and by 10,000 Munſterians, that are 'lately taken into the Pay of the Maritime Powers, and 'are to ſerve without Reſtriction wherever they are 'ordered.'

We have Advice from Copenhagen, that the Princeſs Royal of Denmark is brought to-bed of a Prince, who is Heir apparent to the Crown of that Kingdom; on account of which, prodigious Rejoicings have been made.

The French are actually in Poſſeſſion of Ghent and Bruges; the former they enter'd on the 11th, and ſur priz'd the latter on the 18th. They are both Places of no great Strength, and of ſuch a vaſt Extent, that it would require a conſiderable Army to garriſon them.

According to Advices from Cadiz, a Regiſter Ship lately arrived there from Vera Cruz, has brought on the King's Account, excluſive of that of the Commerce, 5,000,000 of Pieces of Eight, part of what was ſent in January laſt by the Count de Fuenclara, Viceroy of Mexico, to Vera Cruz; and it is ſaid they expect nine Ships more.

They write from Vienna, that in virtue of a new Treaty made with the King of Sweden, 8000 Heſſians are to enter into the Pay of his Britannick Majeſty, and are to be employ'd in the Electorate of Hanover, while 10,000 Hanoverians march to join the Army of the Allies in the Empire. They add, that in virtue of this Convention, the Courts of Vienna and Caſſel are entirely reconciled.

But Advices from Ratisbon ſeem to render this Piece of News a little doubtful; for they inform us, that ſuch high Diſputes have riſen between the Heſſians and the Auſtrians in Ingolſtadt, that Baron Roth, who commands there, had ordered the Heſſians to lay down their Arms, and to march out of the Town immediately, which they having refuſed to do, it was very much feared that great Confuſion would happen.

According to an exact State of the French Forces, lately publiſhed at Paris, the Army in Flanders conſiſts, including the Reinforcement from the Rhine, of 121½ Battalions, and 211 Squadrons, making in the whole 104,550; and the Army on the Rhine, excluſive of that Reinforcement, is ſaid to conſiſt of 78 Battalions, and 107 Squadrons, making in the whole 62,850 Men. We ſhall only obſerve, that if theſe Accounts may be depended on, the latter is much inferior to the Combined Army under the Grand Duke.

There are private Letters from Italy, which ſay, that Baron Theodore is again landed in Corſica; that the King of Sardinia has promiſed him two Regiments of Corſicans in his Service; and that he is making all the neceſſary Diſpoſitions for reducing the ſtrong Places in that Iſland, which are ſtill in the Hands of the Genoeſe; which it is believ'd will occaſion a Change in the Councils of that Republick.

Some private Letters from Hamburgh ſay, that a new Convention has been ſecretly concluded between the Courts of Copenhagen and Verſailles; by which the former engages to the latter not to negociate any Troops with any Power whatever, in Conſideration of a Subſidy of 1,200,000 Livres per Ann. to be paid half-yearly.

The laſt Letters from Genoa ſay, that they were extremely ſurprized there, at the Reſolution taken by the Venetians to aſſemble a Body of 18000 Men, under the Name of an Army of Obſervation; and that it was believ'd it would hinder the Genoeſe from performing their Treaty with the Spaniards.

By General Schulembourg's advancing as he has done with the Queen of Hungary's Troops to Novi, the Scheme of the Count de Gages is entirely defeated; for he has occupied the Plain ſo as to prevent their obtaining either Forage or Proviſions from the only Part of the Genoeſe Dominions, which are capable of furniſhing any Thing for their Subſiſtence.

There are ſeveral private Letters in Holland, from different Ports of France, which confirm the Reduction of Cape Breton, with the additional Circumſtance, that the French have likewiſe loſt a Man of War, and ſeveral arm'd Veſſels.

Several Letters from the Mediterranean adviſe, that a Spaniſh Ship from the Havanna for Cadiz, having on board 700,000 Piaſtres, with other valuable Effects, is taken and carried into Gibraltar by the Britiſh Ships of War in thoſe Parts.

The Prince of Conti has, its ſaid, in ſome Letters by the Dutch Mail, repaſs'd the Rhine, and blew up the fine Stone Bridge at Aſchaffenberg; and that the Allied Army was preparing to follow them.

Lieutenant-Colonel Beake, of the Right Hon. the Earl of Hertford's Regiment of Blue-Guards, is coming to England to be cur'd of the Wound he receiv'd at the late Battle near Fontenoy, part of his Foot being ſhot off.

By the Happy Return, Capt White, arrived in the River from Antigua, there is Advice, that ſome French Men of War, with Land Forces on board, are gone from Martinico to make an Attempt on St. Lucia, an Iſland near Barbadoes, from whence they intend to drive the Engliſh Inhabitants, and eſtabliſh French in their Room.

On Sunday in the Evening a Coach and Four, with two Gentlemen and two Ladies in it, on their Return from Hampton-Court, was attack'd by a Highwayman, well mounted, on Hounſlow-Heath, who robb'd them of Five Guineas, and ſome Silver.

We hear that the Captains Burriſh, Williams, Dilks, &c. are cloſely confin'd on board a ſecond Rate Man of War at Portſmouth.

On Tueſday an Information was tried at the King's Bench at Weſtminſter againſt one William Jacobs, alias Jacob, a Footman, for forſwearing himſelf on the 9th of Auguſt laſt, in order to obtain a Licence, by which he procured himſelf to be married to a young Lady about Sixteen. The Jury found him guilty, and he is to receive Judgment next Term.

Monday Morning a young Lad, Apprentice to a Packer, going along Laurence Lane with a Burden, ſunk under it, and expired.

They write from Briſtol, that there have been upward of 60,000 Quarters of Wheat, and other Grain, lately exported thence for Ireland.

The Poſtilion, from Vera Cruz, who was ſaid to be taken by an Engliſh Privateer, was taken by his Majeſty's Ship the Kennington, and carried into Gibraltar.

The True Briton Privateer, Capt. Dyer, carried into Liſbon the 27th of June, the Magdalen, Khal, a Hamburgh Ship, from Cheſter, where ſhe loaded with Lead the Middle of Auguſt, and 'tis ſuppoſed is bound to an Enemy's Port.

The Lords Commiſſioners of the Admiralty have appointed Mr. Elliot Smith to be Captain of the Norwich, a 50 Gun Ship, lately launched at Woolwich.

We are inform'd, that ſince the Rowley Powly Gentry have been driven by the Hand of Juſtice from their Head-Quarters in Covent-Garden, they have thought fit to entrench themſelves ſomewhere behind Ludgate; but there is good Reaſon to believe their new Camp has been reconnoitred, and that the next News we ſhall hear, will be, that they have once more moved without Beat of Drum.

The Swift and Cæſar Privateers have taken, and brought into the Downs, the Fortune, Capt. Boyſon, of and from Copenhagen for Spain.

Tueſday John Blachford and Francis Cockayne, Eſqrs. Aldermen, were choſen Sheriffs of this City and County of Middleſex, for the Year enſuing.

The True Cordial QUINTESSENCE *of* VIPERS, *the moſt Noble and Grand Preparation in the whole* Materia Medica, *for the real, ſubſtantial Cure of* Impotency *in Men, and* Barrenneſs *in Women; and is vaſtly preferable to* Viper Wine, *or any other Preparation of* Vipers *whatever, as being replete with the full and whole Virtues of them.*

A Few Drops of it only, gives ſuch a generous Warmth, and ſo exceedingly delights the Vital and Animal Spirits, Senſes, and Nerves, as ſoon to ſhew what it will do, upon a little Continuance of it; for it not only promotes, and prompts to a Deſire, but alſo furniſhes proper Matter, for the Support and Eſtabliſhment of a true laſting Generation and Power.

By this Means it anſwers the End as well of Food as Phyſick; nor is there any thing in Nature beſides, that can in that Reſpect come up to it conſidering that it univerſally nouriſhes and reſtores in all the Decienſions of Deſire and Vigour, without the leaſt forcing the Veſſels, or ſtimulating the Parts, as moſt other Medicines for theſe Purpoſes do: And tho' it be a Maxim in Phyſick, that SINE CERERE & BACCHO FRIGET VENUS, this, in itſelf, is ſo ſufficiently nutritious as to want no Aſſiſtance that Way; not but it muſt be allowed, that good Eating and Drinking with it, cannot but in ſome Degree, at leaſt as an Auxiliary contribute to its Efficacy.

Nor does it only furniſh Matter and create Deſire, but alſo true Power (as it braces up and corroborates the Teſtes) and gives an elaſtick Springineſs to the Muſculi Erectores Penis in Men, and corrects, cleanſes, and comforts the Uterus, or Womb in Women, the Lankneſs and Laxity of the former, and the Foulneſs, Coldneſs, or Obſtruction of the latter; being more the Cauſe of Impotency or Infertility, in the one Sex, and Indifferency or Sterility in the other than any Thing elſe beſide; and that it is Balſamick, and greatly Reſtorative, is confirmed by long Experience, and we have many Inſtances in Phyſical Writings, of Perſons arriving to a healthful old Age, as well as recover'd from deplorable Decays and Weakneſſes, by a continued Uſe of the common Preparations of Vipers, which this Quinteſſence, by being of vaſtly more Efficacy, brings about in a Quarter of the Time, and with the Tenth Part of the Quantity.

Thoſe who but once try it, will ſo pleaſantly experience it nutritive quickening Properties, in exhilerating the Heart, reviving the Spirits, comforting the Vitals, circulating the Juice, and recreating and renovating, as it were the whole Man, that they will never be without it; for it is ſuch a preſent Help, in Time of Need, as that on the taking then but a Doſe or two more of it than ordinary, it will ſo inſtantaneouſly animate the dull inactive Spirits, and rouze up and actuate the ſluggiſh enfeebled Faculties, in both Sexes, as to excite and capacitate where it could hardly be expected, and at the ſame Time ſeldom fails to render that conjugal Intercourſe Prolifick. Price Half a Guinea the Bottle.

Mr. Weſt, Goldſmith, who us'd to ſell theſe Bottles, being lately dead, it is now Sold only by his Son-in-Law, Mr. Johnſon a Baker, at the Seven Stars in Vere-Street, Clare-Market, ſealed up, with Directions (for any Meſſenger) upon aſking for only a Bottle of Quinteſſence.

The Sixteenth Edition of

ONANIA: Or, The Heinous Sin of Self-Pollution, and all its frightful Conſequences (in both Sexes) conſidered, with Spiritual and Phiſical Advice to thoſe who have already injured themſelves by this abominable Practice.

As alſo the SIXTH EDITION of the SUPPLEMENT to it, both of them Reviſed and Enlarged, and now printed together in One Volume.

And as the ſeveral Paſſages in the former Impreſſions, that have been charged with being obſcure and ambiguous, are in theſe cleared up and explained, there will be no more Alterations or Additions made to them.

Theſe Editions contain ſome further and ſurprizing Inſtances of the Miſchiefs by that filthy, ſinful Commerce with one's ſelf, which is ſo notoriouſly practiſed, as well by the Adult as Youth, Women as Men, Married as Single, to the weakning their Generative Faculties, and hindering Procreation, as their Letters of Complaint to the Author herein inſerted, ſhew.

And, amongſt others, a curious Letter from a Lady with his Anſwer to it, concerning the Uſe and Abuſe of the Marriage Bed; together with divers Caſuiſtical and other Letters from both Sexes, of ſome ſecret unnatural Effeminacies, neceſſary to be known both by the married and ſingle of each Sex. To which is added,

A Curious PIECE tranſlated out of the Latin, from L. S. SCHMEDIER, as it is inſerted in the *Acta Lipſienſia*, concerning the Return of the Seed into the Maſs of Blood; well worth the Peruſal of Phyſicians, Surgeons, Anatomiſts, and all others of Art and Curioſity.

As alſo Dr. QUINCY's Tranſlation of Dr. CARR's remarkable Anſwer to a Letter ſent by a Divine, concerning two Nuns in Rome, reported to have changed their Sex.

Likewiſe Dr. DRAKE's and ſeveral other Phyſicians Opinions of Hermaphrodites, and Women brought to a Reſemblance of them, by the Practice of Self-Pollution, as was the Caſe of a young Lady of 18, whoſe well-wrote Letter to the Author, deſcribing and lamenting her Condition, is (in order to deter others) inſerted.

A very grave and learned Divine and Phyſician having peruſed this Diſcourſe, before it went to the Preſs, returned it with his Opinion of it in theſe Words.

' This little Book ought to be read by all Sorts of People, ' of both Sexes, of what Age, Degree, Profeſſion, or Condition ' ſoever, guilty or not guilty of the Sin declaimed againſt in it.'

PARALYTICON SEU ANIMA NERVORUM:

A stupendous Chymical Essence which infallibly cures the PALSY and all other Nervous Diseases.

THE very first Dose of it (a few Drops only) instantly penetrates the inmost Recesses of the minutest Nerves, and darting all most as quick as Lightning through the whole human System, diffuses kindly Warmth and genial Comfort to the weaken'd Limbs, and all Parts of the Body, and affords immediate sensible Relief in the most obstinate Palsy, and all Paralytick Affects, Shaking, Trembling, Numbness, Deadness, and Weakness, whether universal, or of particular Parts only, or whether lately contracted, or of many Years Continuance.

And as the very first Dose makes an apparent demonstrable Amendment to the continuing it for a short Time, as surely accomplishes a perfect Cure, not only of the most grievous Palsy or Resolution of the Sinews, but also of their Cramp like Contractions, shrinking of the Nerves, and all other nervous Complaints whatever, and than it Persons of either Sex or of any Age, and whether occasioned by preceding Illnesses, fast Living, hard Drinking, long Courses of Physick, great Colds, or excessive Fatigues either of Mind or Body.

Words cannot sufficiently express the uncommon, the unparallel'd Efficacy of this great Medicine, as all who take it, frankly acknowledge; and its vastly superior Excellency to all other Remedies, may be more securely rely'd on for the absolute Cure of the Palsy, and all Paralytick Affects, and Nervous Indispositions, than the celebrated Cortex is for intermittents.

It rectifies all Disorders of the first Passages, creates an Appetite procures a good Digestion, enriches the Blood, restores the natural Vigour and steady Use of the Limbs, and strengthens the enfeebled Joints Muscles, Tendons, Ligaments and whole Habit to an immense Degree. It is also very pleasant to take, is comforting and cordial to the Stomach and Bowels, and for Safety might be given to the youngest Infant. It is to be had only by the Author's Appointment, at Mr. Radford's Toyshop, at the Rose and Crown against St. Clement's Church-yard in the Strand, at 3s. 6d. a Bottle with printed Directions at large.

ANTI-SIPHYLICON

THE only short and most infallible CURE in the Universe for the *Venereal Disease* from the slightest Infection to the most extreme and deplorable Degree of it, even when the Blood and Juices are thoroughly contaminated with its malignant *Virus*, and the very Bones are affected with it.

Fresh Infections, call'd Claps, with all their attendant Symptoms, tho' ever so severe, are entirely carried off by it in a few Days, and so as effectually to prevent the Blood and Juices from being tainted with any remaining Relicks, on one Hand, or a seminal Gleet, or Weakness, to happen on the other.

And the most inveterate Degree of the *French Illness*, attended with nocturnal Pains, universal Breakings-out, and all other the most exasperated Symptoms, are soon overcome by it, and effectually and much more safely cured than by Salivation, Inunction, or any other Method whatever, and in so easy and pleasant a Manner, without impairing Strength, or occasioning any Inconvenience, as loudly to bespeak it the only appositie Remedy, or true *Venereal Antidote* in the World, and this tome Thousands have, to their great Joy, experienced.

It is pleasant to take, occasions no Sickness or Disorder, nor requires Confinement, but may be taken, and the Cure be accomplished, without the Knowledge of the nearest Friend.

Those who suspect they have received an Injury may, by only a Dose or two of it, be perfectly freed from all Apprehensions; for it suffers no lurking Venom to lie hid in the Body, but wholly extirpates it, Root and Branch, in a gentle, easy, and most effectual Manner.

All such, likewise, as doubt they have some remaining Relicks of former Injuries, may, by a few Doses of it, entirely free themselves from all Suspicions of that Kind; for it admits of no Foulness, Corruption, or Putrefaction whatever, to remain in the Fluids, or to adhere to the Solids; and, on that Account, in all Scorbutick, Scrophulous, and even Leprous Eruptions, or Foulnesses of the Skin, or glandulous Swellings, and Impurities of the Juices, it does more by one Dose than any other Medicines yet known, can by ten.

The Price of this most noble *Anti-Siphylicon* is but six Shillings a Pot; which, considering its extraordinary Efficacy, one Pot only being sufficient, in most Cases, to accomplish the Cure, is not a tenth Part of its Value; and is appointed by the Author to be had only at Mr. Radford's Toy-shop, at the Rose and Crown, against St. Clement's Church-yard, in the Strand, ready sealed up, with a Book of Instructions, by the Perusal of which all Persons who were ever affected with any Degree of the *Venereal Disease* may perfectly understand their own Condition, and certainly know when, and when not, the *Venereal Poison* is entirely rooted out of their Bodies. Note, *Ask only for a Six Shilling Pot for the Scurvy.*

Dr. R. NELSON's *long-experienced* COMPOUND, *or never-failing Anti-Venereal Electuary, the like of which is not to be met with,*

FOR the true Cure of fresh Venereal Injuries, (and all the lurking Relicks or Remains of old ones) how virulent or obstinate soever they may be, for it immediately puts a Stop to their Progress, and entirely, and as it were, instantly, ferrets out, and carries off all their pernicious Infection, wears away the various Symptoms, and by Degrees clears off the Running, and heals and strengthens the Parts effectually and firmly, without the too common Consequences of leaving either Foulness, Gleeting, or Weakness behind. This it does in a Way so regular and gentle, both by Stool and Urine, and with a Dose, exact Time so small and pleasant (the Quantity but of a Nutmeg) that the nicest Persons are as well surprized as delighted with it; and the more, as it agrees with every one's Constitution, hinders no Business, nor gives the least Suspicion to the nearest Relation.

In a very small Space of Time (having temperately) it rids away a recent CLAP, and those more severe, according to their several Degrees of Malignity.

There never was, nor can be in the whole Art of Physick contrived, any Medicine or Method capable of performing the Cure more certainly, more safely, or more speedily, for it is so compleatly adapted to every Circumstance of the Infection, and so fully answers the several Intentions of curing, that it is impossible it should once fail.

But no more need to be said of it, for it will recommend it self, inasmuch that no Person will ever after seek for Cure himself, or advise his Friend to any other Remedy.

Price 5s. the True Pot. Prepar'd only by the Doctor, as aforesaid and are delivered up with Directions at Mr. Cabell's Bookseller, at Addle's Head, opp. the St. Dunstan's Church, Fleet-street, and by Mr. Cook under the Royal Exchange; where it may be had by any Messenger, taking only for a 5s. Pot of the COMPOUND.

CONFECTIO POTENTISSIMA.

Or, The most *Powerful Restorative Confect* in Nature For Impotency in *Men* and Barrenness in *Women*,

IS delightful to the Palate, most agreeable and cordial to the Stomach, enriches the Blood, enereases the Spirits, invigorates the Nerves, and perfectly renovates all the Animal Faculties, and generative Powers, in both Sexes, to such a Degree, as Words can scarcely express; and yet acts not only by a stimulating Quality, or blowing up a Flame, but by adding a true Pabulum Amoris, a kindly Fuel, by which Nature is in a Manner regenerated, and so much Strength, Vigour, and Ability, immediately given, that Impotency, and every Kind of Weakness, or Imbecility in the Male Sex, and Barrenness, and all Sorts of Weakness, and Inappetency to conjugal Rites in the Female Sex, are most infallibly and directly cured by it, in a very pleasant and highly agreeable Manner, infinitely beyond what any other Remedy can accomplish Decays of every Kind in either Sex, and all Seminal Weaknesses, however occasioned, it almost instantly cures, when nothing else will, and can be had only, by the Author's Appointment at the Gentlewoman's at the two Blue Posts, in Haydon-Yard, in the Minories, London, at five Shillings a Pot, with printed Directions at large.

Concerning Gleets and Seminal Weaknesses of all Kinds.

ALL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleets and Seminal Weaknesses whether occasion'd by too severe purging for Venereal Injuries, violent Straining, Pollutions, or any other Cause whatever; and that they are dangerous in their Consequences, as well as difficult to cure, as certain since they exceedingly weaken the Generative Faculties, infeeble the whole Nervous System, often bring on Hectick Heats, a Tabes Dorsalis, or Consumption of the Back, or an Atrophy or Nervous Consumptions which frequently terminate in Death itself.

All such therefore who have the Misfortune to be troubled with Old Stubborn Gleets, Seminal Effusions, Involuntary Emissions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Ureters, or Bladder, the Diabetes, Incontinency of Urine, or Difficulty of holding their Water, would doubtless be glad to meet with a certain, safe and speedy Cure, which they most assuredly may, by the taking only a small Quantity of a transcendent Balsamick Restorative Electuary, now published for a general Good, after having for many Years in private Practice been experienced never once to fail perfectly curing the most stubborn Gleets known, in a few Days, without Difficulty or Trouble; as also all other Weaknesses of the Back, Reins, Seminal and Urinary Passages, which it almost instantly cures, bringing to rights and restoring all those Parts and Passages to their natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent Balsamick Restorative Electuary is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weakness and Decay of Constitution of any Kind, and particularly strengthens the Back, Reins, Seminal and Urinary Vessels, to a most immense Degree, insomuch that in any Debility of them, one Dose of it does more than ten of any other Remedy yet found out; and all Persons fatigued with Gleets or Seminal Weaknesses of any Sort, or Weaknesses of the Urinary Vessels, who take it, will in three Days time find it so very effectual, that they will be most agreeably surprized at it.

When a Medicine will infallibly accomplish such a safe, speedy and perfect Cure of such difficult Maladies, as Gleets and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been try'd in vain; too much cannot be said in Praise of it, and this all who ever took it for any of the above-mention'd Purposes, have readily declared.

The Price is but 6s. a Pot, altho' for its absolute Efficacy, one Pot alone being sufficient in most Cases to accomplish a Cure, worth ten time, as much, and by the Author's special Appointment, is to be had only at Mr. Radford's Toyshop at the Rose and Crown against St. Clement's Church Yard in the Strand, ready sealed up, with a Book of Instructions, which whomsoever carefully reads will be complete Master of his own Case, and perfectly know, when the Gleet or Weakness he is afflicted with succeeds a Venereal Injury, whether all the Malignity of the Foul Disease is intirely extirpated or not.

Note, Ask only for a 6s. Pot of Balsamick Electuary.

The so-much Fam'd HYPO-DROPS.

WHICH in a few Days infallibly cure *Hypochondriack Melancholy* in *Men*, and the *Vapours* in *Women*, so as never to return again be they ever so severe, or of many Years standing, and even after all other Remedies have prov'd ineffectual; and that by immediately striking at the very Root or true Cause, as well as removing the Effects, of those perplexing Maladies and all their Variety of Symptoms, by which they mimick, by Turns, almost all the Diseases poor Mortals are afflicted with, and have their Rise from a depraved Appetite, vicious Ferment in the Stomach, and Indigestion of Food whence proceed Crudities and flatulent or windy Disorders in the first Passages, ill Fumes, sour Belchings, Cholick, and Uneasiness in the Bowels; which Crudities offend the Nerves, and, by Consent of Parts affect the Head, and produce sometimes Giddiness, Dimness of Sight, confused Thoughts, pertinacious Watchings, troublesome Sleep, Frights, groundless Fears, and the deepest Melancholy, with direful Views and terrible Apprehensions; at other times, Fits, flashing Heats, Reachings, Faintness, Lowness and Sinking of Spirits and Palpitation of the Heart, Startings, Tremblings and Twitchings in the Limbs and other Parts, with many convulsive Disorders, sharp Pains, fix'd or wandering, Pain and Weakness in the Back, and other, almost innumerable and grievous, Symptoms, which miserably afflict vast Numbers of both Sexes.

All which Symptoms in their sharpest Paroxysms, these stomach fam'd and most pleasant Drops, (which are Chymically prepar'd from the most valuable Specificks in the Mineral, Vegetable, and Animal Kingdoms, and exalted to the highest Degree of Perfection possible) instantly quell, and at the same time annihilate their real Cause, directly bringing the Stomach into right Order, creating a good Appetite, rectifying the Digestion, occasioning laudable Chyle and, of course, good Blood, Plenty of calm, free, and chearful Spirits, a regular Circulation of all the Fluids, and Strength of Nerves so that both Cause and Effects of Melancholy and Vapours, are thoroughly removed by them, almost on the Spot, as the many Thousands of both Sexes they have perfectly cured, evince.

Whoever takes them for three Days only, will be sensible they are absolutely to be depended upon for an effectual and lasting Cure, and certain it is, that no Medicine upon Earth can equal them; be careful therefore to have the right Drops, which are to be had only at Mrs. Holt's, at the Crofs-Keys and Star below the Royal Exchange, in Cornhill, at 3s. 6d. a Bottle, with Directions at large.

The only Infallible and Speedy CURE for

The most confirm'd LEPROSY, either of the Moist *or* Dry *Kind*,

By a pleasant ELECTUARY, that has been sold for several Years past by the late Mr. Parry *in* Boar's-Head-Court, Fleet-street, *with much and happy Benefit to the Public; and is now sold only by Mrs* Read, *for* Five Shillings *a Pot, with Directions, at her Great Corner House in* White-Friars, Fleet-street.

FOR all Leprous and other stubborn Breakings-out on the Skin, whether of the whole Body, or in particular Parts only, this is the only sure and easy Method of Cure, being an incomparable pleasant Electuary, which, after all the usual Methods and Medicines, and even Salivations try'd in vain, perfectly eradicates those inveterate Maladies, though of many Years standing, so as never to return again, accomplishing that in a few Days which no other Means can possibly perform in many Months, and that with the greatest Safety in the World, and without any Confinement, as has been happily experienced by many Hundreds.

Common Itches, and other slight Foulnesses of the Skin, it completely cures, a most in an Instant, without Trouble, and for the worst Scabbiness, and most grievous Leprosy, may certainly be depended upon as absolutely infallible, as the Patients themselves in three Days Time will assuredly find.

N. B. This noble Specifick Electuary may be taken with equal Success in extreme Weather, hot or cold, by following the printed Directions given with this Medicine.

An Infallible REMEDY

For BROKEN-WINDED *HORSES,*

WHICH has been publish'd and sold many Years before any Counterfeits in other Forms appear'd; and highly commended from one Friend to another; The vast Quantities that have been sold do also verify the Truth of its Efficacy and Virtues, for it most perfectly cures them, after all other Means have been ineffectual, to a Wonder, in a small Time, without Confinement; by attenuating and opening the Globules of the Lungs dried up, and all the Passages obstructed by Humours dripping thereon, occasion'd by hard Riding, Colds, &c. It causes presently a free Perspiration, renewing its Force, Vigour, and Length again, as well as ever.

It immediately cures those Horses only a little touch'd in their Wind, as a Dall continu'd Coughs, Colds, Wheesing, &c. being excellent in preventing many other Distempers incident unto them, by maintaining, preserving and continuing a good Breath.

And in a Word, by this very Medicine alone, many Horses have been made so perfectly sound, that they have been sold or valu'd from 10 to 30 or 40 l. which, by being broken-winded, could not before be sold for 3 or 4 l.

It is sold at Mr. Sandwell's Toyshop at the Sign of the Griffin, the Corner of Buckler's-Bury in the Poultry, at 4s. 6d. the Quart Bottle, with Directions for taking it, and no where else in England.
